

Statement of Educational Philosophy

UCSF School of Dentistry

We, the faculty, students and staff of the UCSF School of Dentistry, are committed to fostering an environment of mutual trust and respect.

We believe this goal requires clear communication, compassion for others, and enthusiasm for the dental profession.

To this end, we accept personal responsibility for our interactions with patients and colleagues and we encourage one another through constructive guidance.

This team philosophy will be the foundation of all our endeavors, even in challenging times. In this way, we will continue to achieve academic and clinical excellence, create lifelong professional partnerships, and provide lasting contributions to the greater community.

UCSF Dental Center

NEW PATIENT INFORMATION

Welcome to the UCSF School of Dentistry Dental Clinics!

We are located at 707 Parnassus Avenue, San Francisco, California 94143-0752. For information and/or appointments in our clinic, please call (415) 476-1891 or visit our website:

http://dentistry.ucsf.edu/patients/patients_main.html

Dental care in the **Predoctoral practice** is provided by dental students under the direct supervision of faculty dentists. The purpose of your first visit with us is to assess your overall dental conditions and report our limited findings. **There is a \$15 fee for this assessment.** In addition, our evaluation allows us to determine which of our three clinical practices would best fit your needs if you choose to become a patient in the School of Dentistry. Our three practices are: the Predoctoral Clinic, the Postgraduate Clinics, and the Faculty Group Practices. While it takes longer to complete treatment than in a private office (most appointments last approximately three hours), the fees in the Predoctoral clinic are generally less than the cost of a private office. Patients with complex dental or health conditions or treatment needs are beyond the scope of the Predoctoral Clinics. These patients will be referred to more advanced providers. When the initial evaluation is completed you will be assigned to one of our three practices based on a discussion with you about which practice best fits your dental and health needs. If you become a patient in the Predoctoral clinic, you will be assigned to a primary and possibly a secondary student co-provider.

You will be given an appointment as soon as possible. Please be prompt or early to your appointed time, which is reserved for you. If you are unable to keep your appointment, please call us at (415) 476-1891 so that we can reschedule your appointment. **There will be a charge of \$10 for each broken appointment or when you cancel your appointment with less than 24 hours advance notice. The dental chair assigned for you and your student dentist is reserved until twenty minutes after your appointed time. After that, the chair is reassigned to another student-dentist and you will be charged a broken appointment.**

Your first appointment as a **patient of record** in the Predoctoral clinic will be to start your comprehensive oral examination (complete set of X-rays are necessary), discuss our findings and formulate a plan to restore your dental health and implement preventive care to reduce or eliminate future dental disease. We encourage you to ask questions if you need information or clarification on our clinic policies, procedures or treatment modalities. If you have x-rays from a previous dentist, please bring them with you if possible. If you do not have recent, acceptable x-rays, we can take them at the school.

Treatment in the Predoctoral Clinics must be paid in-full at the time of service. We cannot make future appointments for patients with an account balance. As a convenience for our patients, we do accept major credit cards and checks.

If you are referred to either a Postgraduate or Faculty dental practice, you will be given the appropriate telephone number to call at your convenience to schedule a comprehensive examination or consultation appointment.

Dental care in the **Postgraduate Clinics** is provided by dentists taking advanced training in specialty areas. The fees are higher than the Predoctoral clinic, but less than those of a private dentist.

Dental care in the **Faculty Group Practices** is provided by the teaching faculty in group dental practice settings and the fees are similar to those in the community.

THANK YOU FOR THE OPPORTUNITY TO SERVE YOU!

Dental Patient Bill of Rights and Responsibilities

The Patient Rights and Responsibilities printed below apply to every patient in our clinics with the understanding that the University of California, San Francisco, in conformance with the applicable laws and regulations, does not discriminate on the basis of race, color, national origin, gender, disability, sexual orientation, medical condition or age. We encourage patients to be informed about all aspects of their care. Your dental care provider and teaching faculty are the best persons to ask about the treatment and care you receive at the school.

All patients of the School of Dentistry have a right to:

- Considerate and respectful care.
- Know the name of the dental care provider.
- Be informed of risks as well as the nature of procedures, expected benefits, and the availability of alternative methods of treatment and the risk of no treatment (informed consent).
- Ask your dental provider to discuss all the treatment options regardless of coverage or cost.
- Know in advance the type and expected cost of treatment.
- Examine and receive an explanation of the statement of charges.
- Be informed of continuing dental health care requirements.
- Reasonable continuity of care and completion of treatment.
- Expect dental team members to use appropriate infection and sterilization controls.
- Privacy concerning the dental care program.
- Confidentiality of all communications and records pertaining to care. You are entitled to access the information contained in your patient record, within the limits of the law, including complete and current information about your condition.
- Have these patient rights apply to the person who may have legal responsibility to make decisions regarding dental care on behalf of the patient.

- Treatment that meets the Standard of Care.
- To express concerns or complaints about your care with the assurance that the presentation of a complaint will not compromise the quality of your care.
- Exercise these rights and have reasonable access to treatment in clinics.

As a patient at the Dental Clinics at UCSF, you also have the following *Responsibilities*:

- To report to the best of your knowledge, accurate and complete information regarding any matters pertaining to your health to your dental provider and other health care professionals caring for you.
- To follow the treatment plan recommended by your dental provider (subsequent to informed consent and your authorization to begin treatment).
- To keep appointments.
- To accept the consequences of your own decisions and actions, if you choose to refuse treatment or not to comply with the instructions given by the dental provider.
- To assure that your financial obligations for your health care are fulfilled as promptly as possible.
- To follow Dental Clinics rules and regulations affecting patient care and conduct.
- To respect the rights and property of other patients and Dental Clinics personnel, including no cell phone use in the patient reception and treatment areas.
- To follow the UCSF smoke free policy.
